WE COUNT!

**Call 844-330-2020 or visit
my2020census.gov today.**

Every 10 years we have a count across the nation that helps determine funding for health care, housing, Medicaid, Medicare, SNAP, school lunch and breakfast, Pell Grant, job training and so much more.

For every household not counted, that's hundreds of thousands of dollars not dispersed to our communities.

*We need every household to complete the 2020 Census to ensure we get funding to support our families. Please be sure to count **newborns and toddlers**, and **each person who lives with you**.*

For more information about how the Census affects Native communities, go to nmnativecensus.org
